SIR TOM JONES

"I still can't believe how amazing Kalon is - he's born to be on the stage! Such a consummate professional, and so talented and engaging. Absolutely incredible, he had the crowd eating out of his hands! We weren't sure if they'd go for the dancing before hitting the afterparty, but he soon sorted that - in the words of my client, 'WHAT A SINGER - WHAT A BAND'. The whole band was brilliant too, and the disco look really came together with the costumes and decor, which looks amazing on the photos. It was definitely a show to remember!"

CLAUDINE SPITERI, DIRECTOR, LIVESTOCK PRODUCTIONS

"The first time I heard Kalon I was mesmerised - his stage presence was invigorating and contagious. I had the pleasure to meet him and I can say that his talent matched his personality. I have recommended him to perform in front of A-list celebrities and world-talented performers where he has been a star among stars. I can't recommend him and his management enough."
